## Summary

I'm a Software Engineer mostly focused on Python at EPAM Systems Poland. I have **5+ years** experience specialising in the **full stack web development**, and I have experience on different cloud providers like **Amazon Web Services (AWS)** and **Goggle Cloud Platform (GCP)**. I love \*nix based environments and enjoys to customise all of the development cycle and automating stuffs. Also, I interested in devising a better **problem-solving methods** for challenging tasks and **learning new technologies**.
